Introduction into the topic

Bill Gates, together with his foundation has occupied a leading role in the global fight against COVID-19. He received a lot of media coverage on the traditional media and social media in the past weeks, but not all coverage is positive. An increasing amount of content that is produced around the name of Bill Gates accuses him of things like microchipping humanity to control them or being responsible for the outbreak of COVID-19.

Comments: "Bill Gates explains how vaccines work"

**Owen Walsh** 2 months ago
Bill flexes on us just by not putting ads on his ads cuz he don't need them

When did Bill Gates become a medical doctor or scientist.
Does donating to make vaccines make you an authority on medical matters ?

Bill Gates wants to depopulate the world, yet wants to save lives with his vaccines. A bit of a paradox there.

I've never been a religious man. I would say I'm agnostic but do believe there is a higher power. However, with this current worldwide dark cloud, for the first time in my life I'm thinking I need to rethink my views. Christianity is starting to make more sense. It's not an easy realisation I can tell you!
